6. Hospital Affiliations

Professional Staff Privileges at:
Fairview University Medical Center, Minneapolis, Minnesota

PREVIOUS EMPLOYMENT AND PROFESSIONAL EXPERIENCE

1. Medtronic Corporation Consultant, Fridley, Minnesota

In the Cardiac Rhythm Management program, serving as a research consultant to aid in the direction of patient acceptance research for atrial defibrillation device therapy. This includes helping plan study designs, researching methodologies and providing guidance for data analysis and presentation; also includes developing patient screening measures.

2. Consultant, Personnel Decisions, Inc., Minneapolis, Minnesota

March 1992 – May 1995

In the Leadership Development Program, working with business executives to integrate psychological assessment data, PDI staff observational data and input from the participant's colleagues to facilitate development of leadership effectiveness.

3. Metropolitan Clinic of Counseling, Brooklyn Center, Minnesota

January 1985 – January 1987

Responsibilities included: (1) Supervision of psychotherapy staff; (2) Serving as liaison between senior management and clinical staff; (3) Assisting in coordination of psychological assessment services for the entire clinic; and (4) Provision of full range of psychotherapy and psychological assessment services.

4. Behavioral Medicine Clinic, Abbott-Northwestern Hospital, Minneapolis, Minnesota

April 1984 – January 1985

Responsibilities included: (1) Outpatient psychotherapy for individuals, couples, groups and families; (2) Psychological assessment (personality, intellectual, and neuropsychological evaluation) of inpatients and outpatients; (3) Biofeedback and stress management; (4) Psychological consultation and liaison to medical units (e.g., Chronic Pain, Orthopedics, Cardiology) for evaluation and direct intervention; (5) Provision of clinical services in

affiliated day hospital treatment program; and (6) Program development and evaluation.

5. **Mount Carmel Mercy Hospital Kidney Center, Detroit, Michigan**
June 1982 – March 1984

Responsibilities included: (1) Inpatient and outpatient psychotherapy for patients and families; (2) Psychological assessment of dialysis and transplant patients and their families, evaluating suitability of living-related donors and recipients for transplants; (3) Evaluation of new dialysis patients and families in regard to psychological suitability for dialysis and/or transplantation; (4) Consultation with transplant surgeons, Kidney Center nephrologists, nurses, and social workers regarding patient management; (5) Individual and group support services for nurses and other staff; (6) In-service didactic training of physicians, nurses, and other staff, regarding patient management issues in chronic illness in the Kidney Center, as well as in other departments (Intensive Care Nursing, Pediatrics, Child Psychiatry); (7) Member of Mount Carmel Transplant Committee; (8) Conducting research on patient placement in various treatment modalities related to personality style and family functioning.

6. **Western Missouri Mental Health Center, Kansas City, Missouri**
September 1980 – August 1981

Approved by the American Psychological Association (APA), this was a twelve-month pre-doctoral internship in a major metropolitan mental health center. Provided psychological services on multidisciplinary treatment team in Divisions of *Adult Psychiatry* (4 months), and *Child and Adolescent Psychiatry* (6 months). Responsibilities in working with psychotic and conduct disordered inpatients: individual, group, and family psychotherapy; patient management planning; intelligence, personality and neurological assessment; clinical court testimony. Concurrent responsibilities in outpatient clinic: Above-mentioned services, plus intake and screening. Responsibilities in the *Biofeedback Clinic* (2 months) were treatment planning and administration of relaxation and biofeedback training with patients having a wide variety of chronic pain problems. Consultation and teaching responsibilities: Teaching psychosomatic treatment and family therapy to staff and visiting medical students. Forty hours per week.

Supervisors: Drs. Christopher Penhallow and Albert Moses, Licensed Consulting Psychologists.

7. **Psychological Services Center, University of Windsor**
September 1979 – May 1980

Individual family psychotherapy; consultant for men's and women's treatment groups. Eight hours per week.

Supervisors: Drs. G. Ron Frisch and Janet Leon, Licensed Consulting Psychologists.

8. Windsor Western Hospital, Windsor, Ontario
September 1977 – May 1978

Responsibilities in Rehabilitation Unit: Brief psychotherapy, especially behavioral techniques such as systematic desensitization and directive parental counseling. Ten hours per week.

Supervisors: Drs. Patrick Ryan and Neil Holland, University of Windsor.

9. University of Minnesota Health Sciences Center, Division of Health Care Psychology, Minneapolis, Minnesota (an APA approved setting)
June 1977 – September 1977

Responsibilities in Neuropsychology Lab and Adult Psychiatry Unit; neuropsychological, vocational, intelligence and personality assessment; intake evaluation. Forty hours per week.

Supervisors: Drs. Manfred Meier and John Brantner, University of Minnesota.

10. St. Paul Ramsey Hospital, St. Paul, Minnesota
June 1977 – August 1977

Neuropsychological and personality assessment.

Supervisor: Dr. Manfred Meier, University of Minnesota.
